Policy Document of Greening the Campus

The world is suffering from the evil of pollution, deforestation and explosion of Green Houses Gases (GHGs). It is not only the responsibility of the institute to aware students about these issues but also it is their duty to spread awareness among all stakeholders and conduct the activities which assist in reducing the effects of pollution, deforestation and GHGs. For greening the college campus following programmes are to be implemented as policy decisions and document on the above theme.

1. **Restricted Entry** for Vehicles at the college campus
2. **No Vehicle Day:** Every Thursday of the week is observed as no vehicle day in the college for teachers, non-teaching staff and students in particular and other stakeholders in general.
3. **Plastic Free Campus / Eco-friendly Campus:** No plastic is allowed in college campus. If any plastic substance is found out then it should be handed over to plastic collector.
4. **Tree Plantation:** Under green campus initiative, the tree plantation should be done in college campus surrounded to campus wall.
5. **Use of LED Bulbs:** To reduced electricity consumption, LED bulbs are used.
6. **Waste Management:** All kind of waste management is done with the help of proper procedure and outside agency.

Awareness Programmes: College organized various programmes and activities on issues related to pollution, energy conservation, impact of deforestation, e-waste management, etc.
